GOV. JOHNSONTO OPEN READY TO HELP GIVE ROOSEVELT CAMPAIGN

NOTE IN LOS **ANGELES**

.Governor Predicts California Overwhelmingly for Col. Roosevelt

MISSOURI PRIMARIES SPEAK LOUD FOR TEDDY

Taft Managers Positively Refuse to Leave Choice to the People

are going to start the ball rolling in Los Angeles tomorrow night," declar-ed Governor Johnson today. It is believed that the governor will sound the keynote of the Roosevelt campaign in his speech. He plans to speak in San Francisco on March 15 if arrangements can be made. He predicts that California will overwhelmingly endorse Roosevelt.

Angeles tomorrow morning and at night will make the principal address of his stay at Temple Auditorium, opening the presidential primary campaign for the sending of Roosevelt delegates to the Chicago Repubnational convention.

SOUTHERN CALIFORNIA
TAFTITES ORGANIZED
LOS ANGELES, March 8.—The
Taft campaign in Southern California was opened yesterday in the Angelus Hotel, with Phil Stanton as chairman and Chas. W. Fleming as secretary. The next regular meeting of the Taft Republicans is scheduled for Monday, March 11.

Supervisor Leck Explains the Local Socialists Back Meet-Position of the Board of Supervisors

MUCH FOR BRIDGES MEANS LESS ON ROADS

for Appropriation With Subscription List

lined to take action for the immediate building of a bridge over the Ana river at West Seventeenth street was not meant as an expression of opposition to the project, was the assertion of a member of the board

In his talk at the meeting on Wed nesday, Chairman Taibert stated that he was willing to build all the bridges necessary, provided the Taxpayers "would stand the tax and say they liked it."

oil, culverts, tools and other inciden-tals needed for helping the road sys-tem. Weak road districts are helped out in this manner. If the current expense fund is largely exhausted for bridges, there is that much less left for the general care of the roads.

for the general care of the roads.

This year the county has spent \$6000 in bridges in Supervisor Struck's district, and it contemplates between \$13,000 and \$16,000 for the new bridge on West Fifth street. Some of the members of the board feel that a bridge on Taibert road will be imperative for the hauling of sugar beets. As soon as the river channel is dredged across that road, passage for heavy loads will be almost impossible, and there is no bridge near at hand over which the ranchers can take their loads on the journey to the sugar factory.

"Something will have to be done at that point," said Supervisor Leck. "Either a permanent bridge or a tem-

Jordan asking him to estimate the number of Republicans, Democrats and Socialists that will vote at the presidential primaries on May 14. The letter states that the primaries will be held to select delegates to the national conventions of the three parties. The Prohibition party is not mentioned in the certificate, it having failed to cast a sufficient number of votes at the last election to appear at the primaries. The Republicans are to elect twenty-six delegates, the Democrats twenty-six and the Socialists eighteen. Williams will go over the Great Register today and tomorrow and make his estimates.

The secretary of state informs the county clerk that an estimate of the registration in each party is necessary in order that the office may send to the county clerk the proper amount of ballot paper and the proper number of biographical sketches. The

Gravel Wash Used to Pave the Streets of Arizona City As-says 30 Cents Per Yard

PRESCOTT, Ariz., March 8.—The city of Prescott has been using a gravel wash from an unopened street in the south part of town for capping the main streets, and this capping which is an excellent substitute for paving, was discovered by City Clerk J. H. Robinson yesterday, to be rich in free gold, assaying, he reports, on an average of 30 cents a yard. The capping her hear new on several thousands. ping has been put on several thou-sand feet of street, and it is proposed to continue the work, unless some one devises a means of saving the gold, which is not considered practicable without hydraulic machinery.

"There are fashions in tombstones, just tombstones, just the same as in hats and clothes," and even movement is one of the most striking and encouraging of recent social we have to keep up with them. A few years ago broken columns were we have to keep up with them. A few years ago broken columns were we have to keep up with them. A few years ago broken columns were all the go, and we had our hands full executing such orders. Then came the St. Andrew's cross. It is shaped like an X, and most of our orders ran to that sort of cross.

"Now the Celtic cross is in vogue, and it is quite the proper thing to have put on your monument. They of have put on your monument began for the establishment everywhere of munifer a considerable field for decoration and traceries, but I suppose they will have their run and something new will come in. An experienced tombstone maker can tell approximately when a monument was put up without looking at the date on it, if he has kept up with the fashions."

Then the movement began for the establishment everywhere of municipal playgrounds. Los Angeles now has eight such public playgrounds, with an additional seven in summer; Seattle has twenty-three; Oakiand has seven; Fresno has seven; San Francisco lingers behind, with only four supervised playgrounds but with three other supervised playgrounds three other supervised playgrounds soon to be established, while Port-

THAT SEVENTEENTH STREET

Inquiry among business men and citizens generally, both in Santa Ana and other parts of the county, corfirms the Register's judgment that the Seventeenth street bridge ought to be built by the county, and ought to be built this year.

The Board of Supervisors decided that the necessary funds, estimated at from \$1800 to \$3000, were not available, but boards of supervisors have been known to find money in larger amounts than that when at first thought it seemed not to

Some people are inquiring in this visors can talk and think of spending, without a bond issue, ten times \$180 or more for a county farm if so small a sum as is needed for the Seven-teenth street bridge is not available. This seemingly pertinent inquiry is the supervisors, in planning for a county farm and hospital, hope to buy the farm with money from the general fund of the county treasury and issue bonds for the hospital.

We heartily concur in the judgment of the supervisors that the purchase of a county farm ought not to be longer delayed, and it may be that they regard the amount of money necessary for that purpose as already dedicated thereto. But it would seem that the great resources of Orange County and the business ability o the board of supervisors ought to be equal to the task of financing the building of a much needed bridge at a cost of only \$1800 to \$3000.

The Register joins a large number of citizens in the sincere hope that the "county fathers" will reconsider their action in this matter and build the bridge, or at least, if the bridge must be built by subscription, it is sincerely to be hoped that a liberal subscription will be made by the county, and that the city of Santa Ana will

matter of this kied, is all wrong. The proposed bridge would be a benefit. more or less directly or indirectly, to every taxpayer in the county, and it ought to be paid for, as nearly as the law wil lallow, by general taxation Certainly the people of Berrydale and others who need and would use the bridge are as much entitled to get something for their tax money as are the people who use the Fifth street bridge or the Chapman avenue bridge or any other bridge or road in the

sible when the big fight shall come later on the tariffs which now protect our citrus fruits. We are all neigh bors, and the Facts freely concedes to those who follow Mr. Taft the same patriotic principles and aims we claim for those who have taken up the standard of Colonel Roosevelt. The mere organization of clubs is in itself a patriotic duty, and the signature of a membership roll is a declaration of principles. This is every man's privilege—every man's duty—and he should not be villified by the other side for taking a stand, but rather commended. Men do not all think like, men and iffective the ideas and in temperaments. Business affiliations cause a man to look at politics of imes from a standpoint altogether different from that of a friend whose affiliations are of another class. But he great point is that all men should join some organization of the kind and take an active part in the politi-cal work of the day; show their inerest at least to the extent of joining

The Freeno Republican calls atten-tion to one phase of the primary method of choosing candidates, saying that those whose thinking still follows habits acquired under the old convention system, sometimes deprecate having a campaign within the party, before the nomination, for fear uch a campaign may make it more difficult to unite the party forces on the nominee afterward. Whether this danger is real or imaginary is no longer a practical question. Whatever the consequences, if the people are to do the nominating, at primary polls, there must of necessity be a campaign and an open line-up before that pri-mary. Under the convention system. differences, sometimes be patched up by the leaders, without involving the rank and file. The sorenesses engendered affected only a few individuals, and these the ones most involved in the rules of the game and the best trained to take their medicine under those rules. If we want that condition now, the on ly way to get it is to go back to the worse, the direct primary involves an open campaign within the party. There is no other way to conduct it. And since in California the faction which theoretically prefers the con-vention system would have had no chance under that system this year, the new system with all its consequences, must be welcomed as well as accepted by everybody for at least this time.

THE GOVERNOR SAYS

"The present political struggle," said Governor Johnson, "from the standpoint of those who have been working with a fixed purpose in California, and who firmly believe in that is the most important in recent years.

and which is now gripping even the really be accomplished through the people themselves. That the people fourteen months is to give the people reforms by which industrial and economic reforms may be wrought.

FEDERAL INSPECTION OF MEATS.

malicious purpose to injure business. As this was true in the case of rail-road-rate regulation, so it was in that of pure-food legislation, which was attacked on the ground that it would work havor to a great industry. It was true, likewise, when Rooseveit in 1908 wrote a special message on the conditions in the great meatpacking establishments, and demanded federal inspection of meats.

The outcry which ignorance and

The outcry which ignorance and prejudice raised in opposition was echoed from end to end of the counwere certain to ruin both the domes tic and the foreign trade in meats. Country merchants, bankers, agricultural societies, live-stock associations boards of trade, chambers of com-merce, and individuals by the thousands-every interest that could be reached and aroused—protested against the policy which the President had demanded.

He then sent experts to the packing centers to ascertain the facts. Their reports convinced the public of the necessity for bettering the existing conditions.

As a result of this investigation, Senator Beveridge, of Indiana, presented an amendment for inspecting and labeling meats, which was adopted by the Senate without debate. But in the House it met a determined opposition. The reactionary Cannon his mistake would have been no more undertook first to prevent the legis-lation, and then to make it as mild as possible. Practically everybody pretended to favor legislation; but world over, and so strengthened the

WASHINGTON, March 3 .- To is a military leader, feared by some buck over the traces of time-honored and honored by many congressmen. congressional precedents after six He is feared for choking off convears' patient submission and jump gressmen who wish to fill the Converse into the limelight as a new national gressional Record with "phony" Clark is the watchdog of the Record the power that alone belongs to them. And he is still untamed, protesting He protests against printing a word in the Record that is not actually privileges by his colleagues, and spoken in the House, depriving memhistory the question is clearly pre-sented and each side has its leader and Clark has the distinction of having printing long speeches for home conthe words of neither can be misunder-stood.

One of the shortest personal sketches sumption. Many wait until Clark is cess of men over the complements absent before "putting over" a of the ships assigned will cruise on

sunk deep under bushy eyebrows, and is crowned by a thick, unruly shock of black hair, slightly streaked with gray. He is the typical southern statesman, too, in his black Prince Albert suit, low collar and the annual reunion of the Sumner Literary Society in Chicago, early in April. Chief Wilkie will stay in Washington, though. He is sending a "canned speech" to the reunion, taken on a talking machine.

"Boys in the West Division has black Prince Albert suit, low collar and the sum of the sum of the sum of the Sumner Literary Society in Chicago, early in April. Chief Wilkie will stay in Washington, though. He is sending a "canned speech" to the reunion, taken on a talking machine.

Clark also is famous for his organization of the "Tell Us How to Vote" mail on phonograph Club, by sarcastically suggesting that all Democrats seek advice on every subject from William J. Bryan. A message from Bryan on the steel

Reading of George Washington's farewell address in the House on Washington's Birthday is another distinction of Clark. He suggested reading of the document, declaring former Republican Houses had refused to thus honor the Father of His Country. Speaker Clark ordered the Floridan to read it, and for an hour, until he was hoarse, Clark read the historic paper.

Realizing the value of the naval militia in drilling "land-lubbers" in the ways of the sea, the Navy Definition of the sea that the latest type of shoe with six large eyelets on either side is the ideal service shoe. IN THE HOME CIRCLE

To make a boy into a pure man, a

mother must do more than pray. She must live with him in the sense of comrade and closest friend. She must stand by him in time of tempta-tion as the pilot sticks to the wheel when rapids are around. She must never desert him to go off to super-intend outside duties any more than the engineer deserts his post and goes into a baggage car to read up engineering when his train is pound-ing across the country at forty miles an hour.

The world is full of women who can amuse the ordinary man.

Tell me, ye winged winds that around my pathway roar, do ye not know some quiet spot where wives clean house no more.

Many of us miss the joys that

Little arms encircling the neck will clety, a happy home, but reach to make the heart light, over which no those she knows not of.

Philosophers and poets are alike in the verdict that the safety and perpetuity of any nation lies in the homes of its people.

The girl with a sweet little voice need not feel discouraged because she has no opportunity to sing in grand opera. She can give great pleasure by being a songbird in the home nest.

The philosophers and poets are alike in diamonds sparkle. All the grand opera and isplendid works of art one can possess will never adorn a room as de the smiling faces of those dearest to us. The things that may be bought are pleasant to have, nor is wealth to be displed; but never per man who has the wealth that gold cannot buy, nor the woman whose jewels are those of which Cornelia was so proud—good and obedient sons.

The real business of life is the making of a happy home. When you come to sift the whole chaff of existings here, everything goes to the wind but the happiness we have had at him mortal remains ere he vantage of the mortal remains ere he vantage. There are six secular nights in each week. Out of the six some men spend one at home and five at lodge, while others spend five at home and one at lodge. In which class shall we register your name?

A woman who falls in her home A woman who falls in her home falls in all. Home is woman's realm, given into her hands to regulate, govern and beautify. If she falls here she may look in vain for another kingdom; for she has failed in the only spot where she could have the color of theirs.

The truest, best and sweetest type of the girl of foday, does not come from the home of wealth, she steps out from the house where is comfort rather than luxory. She belongs to the great middle class that class which has given us the best wifehood, which has given helpmates to the foremost men of our time; which teaches its daughters the true meaning of love; which teaches the manners of the drawing room and the practical life of the kitchen as well as teaches its girls the responsibilities of wifehood and the greathess of motherhood. motherhood.

can amuse the ordinary man. Can sing, dance or recite for him; can paint, write or decorate in a manner most pleasing, but the poor man often goes begging for a woman who can sew on buttons or mend his clothes; who can cook his food with economy and flavor it to his taste.

Tell me, ye winged winds that

A man who has made a happy home for his wife and children, no matter what he has not done in the success. If he has not done that, and it is his own fault, though he be the highest in the land, he is a most pursuit of gold. many men in a med pursuit of gold, which characterizes the age, realize that there is no fortune which can be left to their families as great as the memory of a happy home.

Many of us miss the joys that might be ours by keeping our eyes fixed on those of other people. No one can enjoy his own opportunities for happiness while he is envious of another's. We lose a great deal of the joy of living by not cheerfully accepting the small pleasures that come to us every day.

The children whose horizon is a brick wall, who must play on cobbie stones and go swimming in the canal and be chased by the police, if they do not grow up to be ideal citizens, shall we of a coller memories sit in judgment upon them? Shall we not the world, has her price above rubies; and her influence sind example the race of life and be thankful we live in this beautiful country of ours. assailable bulwark of state and so-

Thoughts for the Orchardist

SENSIBLE S. A. H. S. GIRLS

At a recent meeting of the girls of the June graduating class of the Santa Ana High School, the question of dress for the important occasion of graduation was discussed.

The aweet girl graduates decided that "beauty needs no adornment." Samples of dainty marquisette were presented and it was found that the girls could dress in simplicity for \$5.

The class shows its originality in this decision, as it has throughout the high school course.

This is the time of the year when the dairymen of dairy farmer who owns a silo likes to talk about silage Good silage comes as near being June pasture in January as any feed with which the dairyman is familiar. Its succulent or juicy nature especially fits it for stimulating the milk flow and keeping the cow in vigorous health.

health.

Probably the most important rule in the profitable carry is to keep the cow's milk flowing freely as possible after the flow has once been started by parturition or calf birth. To do this demands right feeding and good care. Silege is a cheap feed to cut up, and valuable to use, it is grown on the farm. This is a fact of importance in this day of high-priced mill feeds.

"How brief is the summer on the highlands of Labrador!" says Seszit, and a largeness of accent and keth Pritchard in the Wide World manner. Yet the gypsy glance and chard in the Wide World manner. A Pretty and Inexpensive Bungalow By the Bungalowcraft Co.

404 Chamber of Commerce, Los Angeles, California

This design of bungalow is always popular as it has a taking exterior and a very convenient room arrangement; moreover, it is of a shape which may be made of almost any desired size and expanded in either width or length. The exterior is all of wood, either weather-boards or shingles will look well and the front gable may be of cement stucco with exposed half timbering if preferred. As recently built in Los Angeles it cost \$1250, with pine floors finished and varnished for rugs in the living and dining rooms. rugs in the living and dining rooms.

A cellar under the rear half of the bouse with furnace, using a flue in the fireplace chimney, will add perhaps \$300 to the cost, but as a stove can be placed in the dining room this, with the kitchen range and living room fireplace, should heat the whole house in any not too severe climate. The exterior of the house may be either painted or stained and the inside woodwork is to be stained and finished in shellace. and wax, except the bedrooms and bathroom, in which the trimming is enameled white or any desired tint. The room arrangement could not well be improved upon and the closet room is ample.

The dining room has a paneled wainscoting with plate shelf and a built-in buffet of pleasing but not expensive design which opens through into the kitchen. There is a cosy seat beside the broad open fireplace, which is an attractive feature. The kitchen is made in full cabinet style with cupboards, closets, bins, cooling closet, etc., all arranged just where they will be handlest.

Complete working plans and specifications for this bungalow, either as shown or reversed, may be had for \$10, and it is well to remember when building a home the most economical step that can be taken for both owner and contractor is the purchase of a trustworthy set of plans. All danger of extra charges and extra claims is by this means eliminated —the owner knows from the outset just what to expect and what he is to pay for it, while the contractor knows just what work he must do and the quality of material and workmanship he must furnish. Any inquiries regarding bungalow or bungalow building addressed to the The Bungalowcraft Co. at above address will receive prompt and detailed replies without charge. plies without charge.

Fine Hostelry is to Be Put up

by Collins on Balboa

Island

BALBOA, March 8.—Probably the most interesting building project in the history of this beach is represented in the plan of W. S. Collins to erect on Balboa Island a beautiful tourist hotel of a hundred rooms and costing \$60,000 or more. Plans for the structure are now being drawn by architects Dennis & Farwell of

by architects Dennis & Farwell of Los Angeles.

The fine hostelry projected will look across the bay toward the ocean and will stand alongside the Canal de Venezia, which will be bridged by a concrete span. A retaining wall will be built entirely across the front of the grounds and along the side of the canal. Steps at intervals will lead down to the water's edge and the boat

Architecturally the building will Architecturally the building will suggest Venetian lines. The exterior will be of cement. The structure in lan will be in the shape of the letter "H," the frontage on the bay being 180 feet, by a depth of 150 feet along the canal. The central portion will be four stories in height, with a salarium and tower constitution. solarium and tower constituting practically a fifth story. The main portion of the hotel will have a height of two stories. Every suite in the hotel will have

a private bath and the appointments will be of the most modern type throughout. The dining room will be 40x70 feet in size and handsomely 40x70 feet in size and handsomely finished. On the first floor will also be a large lobby, private dining rooms, parlors and a billiard room. Every guest room will be an outside room. The same architects are drawing plans for a two-story brick building to contain stores, a delicatessen establishment, a restaurant and a garage and to stand in the business section of this place, or not far from the tion of this place, or not far from the Pavillion. The owners are Los Angeles capitalists.

ORANGE RANCH AT A GOOD PRICE

Orange News: J. N. Cox has purchased a nine-acre ranch on North Cambridge street from Alex R. Graham and has moved his family from Los Angeles to the ranch, which is the third place south of Collins avenue on Cambridge. The prece was \$10,000 and the deal was handled without an agent.

Mr. Graham recently sold a ranch at the corner of Collins and Tustin

to J. B. Mulvey of Los Angeles, who will move his amily here about June 1st, this deal also being handled without an agent. Mr. Graham still owns his fanch, Palm Place, at the corner of Collins and Batavia, and will continue to reside there.

in California history.

Already much new light has been thrown upon the earliest beginnings of California history by the researches and the publications of the Academy of Pacific History. From Henry Morse Stephens, its secretary, and Rudolph J. Taussig. Academy of Pacific History. From manuscripts in the possession of the university have been published the official account of the Portola Expedition of 1769-1770, which discovered San Francisco Bay. Save for Sir Francis Drake's sailors, and the wrecked crew of the San Agustin, white men never before had set foot on the mainland of California. Other publications are the narrative, and separately, the diary, of Miguel Cos-

WEIGHED IN THE BALANCE

Two Able Instructors In the Orange County Conservatory of Music

MISS DODLEY PAGE For a long time a pupil of Mr. Gustlin, there is none among his pupils more capable of representing his methods and ideals than Miss Dodley Page.

The great success with which her work as a

teacher has met justifies her position in the Conservatory as teacher of advanced piano pupils who are not under the immediate tuition of Mr. Gustlin. Miss Page has always been a thorough, conscientious student and these same qualities of precision and sincerity precision and sincerity are characteristic of her teaching. Both in her for-mer home state, Oregon, and in her adopted state, Southern California, she has had superior advantages of study under the very best teachers.

MISS LALLA FAGGE

That we have been successful in engaging Miss Fagge's splendid services in the violin department we consider a most fortunate event. She comes with the most glowing American and European criticisms as a performer and teacher and we feel that not only the conservatory, but the whole community as well, is to be sincerely congratulated upon having the advantage of instruction by so accomplished a musician.

In the past the public has failed to appreciate in sufficient measure the advantages of really first class instruction on that marvelous instrument, the Violin. But we have decided to try once more, and in presenting Miss Fagge we bespeak for her de-partment the patronage which true artistic merit and ability deserve. We would here call espe-

cial attention to the very moderate rates we have made for tuition in the Vio-

such family stores of manuscripts and old time newspapers that an adequate interpretation and recording of the history of California may at last

Clayton, Stoner, Coate and Wright are Named on the Petition

ORANGE, March 8.—Some of the people of Orange have placed what they designate as the Reform ticket.

drowned in Lake Hemet on Thursday of last week, was recovered at 9:30 o'clock this morning, and at 1 o'clock an undertaker arrived with the body at San Jacinto. It will be

Three of the nominations for trus ees are old-time residents and property owners of Orange. C. C. Stoner has resided here for three years. He served four years as judge of Cloud county, Kansas, and for two years in the Kansas legislature.

Petitions for the nomination of these men are said to be in circulation here today, but they have not been filed with the city clerk. This ticket is in opposition to the majority of the present administration.

Huntington Beach News: Although March 8th is the final day for filing nomination papers with the city clerk, fronting the harbor and adjoining the Craig plant, where it will construct yachts, launches and fishing boats. The company filed its incorporation papers Wednesday, naming as directors, Gustave A. Carpe, Theodore L. Curtis and Leonard E. Frye, The corporation organized with a capital stock of \$24,000, of which \$15,000 has been subscribed.

March 8th is the limit day, it is not expected that any will be filed other than those now in his hands, and the canadates for the various city offices to be filled at the election occurring on April 8th next are therefore as follows: For city trustee, M. D. Rosenberger, John L. Gall, H. T. Sundhye, Edward E. French and M. E. Helme. The two first-named gentlemen are the candidates of an organization known as the Citizen's organization known as the Citizen's League and the others have been nominated by personal friends. W. T. Newland, the third nominee of the Citizen's League, has definitely clined to become a candidate.

No less than four men are popular-ly credited with being candidates for and superintendent of streets—two offices which have been heretofore combined and filled by the some person. The four are the present incurbent, C. F. Sorenson, and Jake T. Reed, Eugene Davis and E. C. Vincent. Whether these four are really candidates for the office or whether they have been proposed by friends withhave been proposed by friends with-out their consent will develop later.

For the office of city clerk only one man's name has been men-tioned—that of C. E. Lavering, the present popular and efficient city clerk. The same is true of the office of city treasurer, Ralpn E. Graves, cashier of the First National bank of this city and one of the most popular young men in the community, having an apparent monopoly on the office in spite of the fact that if elected it will be his third term. The third term objections to the presidency of the United States seem to be of negligi-ble strength so far as they concern the treasurer's office in Huntington Beach.

man's name has been considered for the office of city clerk, it is neverthe-less equally true that there is another candidate for the position. It is a woman, Mrs. Susle Whitmore, who woman, Mrs. Susie Whitmore, who has been a resident of this city for the past year and has been employed at various times in the Home Bakery and in the store of R. R. Raymond. Mrs. Whitmore, desires it stated that she is a graduate of the Frewsburg, New York, high school and has been a teacher in that state.

Mrs. Mae Franklin, the only woman who is mentioned for the position of city trustee in Huntington Beach, has been long a resident of the city and is well known to nearly all its people. She is considered fully capable of filling the position and having a very large circle of friends would probably receive a hig vote but declines to run receive a big vote, but declines to run

NICARAGUANS PLEASED WITH KNOX'S MISSION

CORINTO, Nacaragua, March 8.— Secretary Knox entertained the mem-bers of the Nicaraguan cabinet who accompanied him here at a luncheon on board the cruiser Maryland yes-terday.

The leaders of the opposition to the government at Managua told Knox they were convinced he was a friend of Nicaragua and that his mission had pleased the people.

MRS. GRACE HELD ON CHARGE OF SHOOTING HER HUSBAND

ATLANTA, Ga., March 8.—Mrs. Daisy Ulrich Grace is in the Tower, as the Atlanta jail is known, and will remain there until the result of the bullet wouad, which, it is charg-ed, she inflicted on her young hus-band, is known. Released on bond for \$10,000 yesterday, Mrs. Grace was re-arrested at 4 o'clock today at the instance of Solicitor General Dorsey, who ordered that she held in rest who ordered that she be held in paff without bond.

JAPAN HOLDS TROOPS READY
TO GUARD INTERECTS IN CHINA
TOKIO, March 8.—Questioned as to
what action Japan is prepared to take
in the event of China's disturbances
menacing Japan's interesta in Manchuria, Baron Uchida, in a speech in
the Diet yesterday, declared that Japan is prepared to take the most extreme measures if necessary. He added that the Japaness troops at Port
Arthur were held in readiness for any
emergency.

-Notice is hereby given that the Santa Ana Machine Works has changed ownership, and that the preschanged ownership, and that the preschanged ownership and the responsible ent owners will not be responsible for any indebtedness contracted pro-vious to February 1, 1912. W. S. PARKS & CO., Props.

DRAGON FINE PASTRIES

Dragon Pies Are Crisp, Flakey and Full of Goodness.

Our Cakes are the Rich, Good Kind Like Mother Made

Dragon Pies are Liked by One and All. Why?

Because:

—All our fruit pies are made of choice selected fruits.

—We make the mince meat used in Dragon mince pies.

—Our cream, pumpkin and lemon pies are deep and rich.

—Dragon special shortening produces that crisp flakey crust that is found in all Dragon pies.

MANY OF SANTA ANA'S BEST CAKE BAKERS ADMIT THE SUPERIORITY OF DRAGON CAKES OVER ALL OTHERS.

The Dragon has unequalled facilities for cake making and never stints in the quality of the ingredients used. Fresh ranch eggs, good butter, rich milk and cream and the best of baking ovens are important factors, but expert bakers are the greatest reasons why Dragon Cakes are better than others.

Special Showing

Land of Egypt.

Symbolic Teachings Corroborat Science and the Bible, Refuting Evolution and Higher Criticism—It Indicates Distance to Sun, High Calling of Church and Hope of the World.

March 3.-The Committee appointed by the International Bible Students Association to report on Foreign Missions is homeward bound, instead of visiting the missions of eastern and southern Africa. They

will recommend another commission for Africa and Australasia, etc.

We report Pastor Russell's discourse of today, from the text which he said referred directly to the Great Pyramid ocated near this city: "In that day there shall be an altar to the Lord in the midst of the land of Egypt, * * for a sign and for a witness." (Isa. xix, 19, 20.) Not only did God thus mention prophetically in Isaiah the great Pyramid, but also in Jeremiah xxxii, 20, where we read that "He set signs and wonders in the land of Egypt, even unto this day."

The location of the Pyramid is remarkable, and its size centuries ago marked it as one of the Seven Wonders of the world.

Scientists tell us that the measurement of its base on the four sides, at the level of its sockets, when added, gives as many pyramid cubits as there are days in four years, to the fraction -including the leap year fraction. The diagonal measurements across the base, N. E. to S. W., and N. W. to S. E., give as many inches as there are years in the precessional cycle of the stars. This cycle astronomers had alconcluded to be 25,827 years, and the Pyramid corroborates the conclusion. The distance to the sun is indicated by the height and angle of the Pyramid to be 91,840,270 miles, which almost exactly corresponds with the latest figures reached by astronomers.

Spiritual Lessons Here Taught. A key suggested in 1868 by a young Scotchman, Robert Menzies, and which began to open the Pyramid's religious ssons, was the Well. He wrote to Prof. Piazzi Smyth, Astronomer Royal for Scotland, "From the north beginning of the Grand Gallery, in upward progression, begin the years of our Savior's life, expressed at the rate of a year for an inch. Three and thirty inch-years, therefore, bring us right over against the mouth of the Well." In other words, that Well and the appearance of an explosion, picture our Lord's death and resurrection. In harmony with this the Downward Passage represents the course of sin and death, leading to destruction. The low Ascending Passage, blocked by the ranite "Plug." repr Covenant given to the Jews, but which none were able to keep, because "there is none righteous, no, not one."

From the time of our Savior the Gospel Dispensation began, symbolicalally represented by the Grand Gallery. It is a Dispensation of grace or favor, nevertheless its Passageway is deep and narrow, leading to the "Goal" at the farther end. As the Grand Gallery has an end, so this Gospel Age will have an end. It will accomplish its purpose, which is the gathering of the "elect" to be the Bride of Christ. Another interesting feature is that the Ascending Passage with its Plug represents exactly the length of the Jewish Age! And, similarly, the Grand Gallery represents (an inch to a year) the length of this Gospel Dispensation! It indicates that at a certain time the great favor of becoming jointsacrificers with the Redeemer, and thus becoming joint-heirs with Him in

His Kingdom, will terminate. The King's Chamber Granite. Before entering the Ante-Chamber or school, the pupil must stoop low, implying humility. No sooner has he risen than he finds himself confronted by a huge granite obstruction, known as the Granite Leaf, and he can make no further progress except by bowing low to pass under it. Symbolically it says, It is not sufficient that you have a desire for Godliness, and faith in Jesus, and a desire to be taught of Him; you cannot go further unless you

make a full surrender to God. changed," because "flesh and blood

LOS ANGELES PRODUCE MARKET

Gold Ball 1.95

The decidedly firm condition of the potato market the first part of this week was followed yesterday by further advances on all grades. Highlands showed an advance on the inside range of 10 cents to \$2.35. The outside figure of \$2.50 was firmly held. Salinas advanced 15 cents in range to \$2.75. Oregon Early Rose advanced 25 cents to \$3.00. White Rose, locals, went to \$2.75. Watsonville to \$2.65@\$2.75 and Oregon to \$2.50 per hundredweight. The market appeared firm at these advances and will probably go higher short.

Celery was slightly firmer, fancy

to 19 cents and seconds and pullets stock to 17 and 16 cents, respectively. The decline was due to heavier receipts and a falling off in the demand. Many retailers are purchasing their supplies direct from the producers and are selling their stock irrespective of board quotations. Residual.

W. B. WILLIAMS,

Would AND,

ADVERTISERS—indians offers unlimited opportunities for business to classified advertisers. A recognized advertising medium is the Daily and Tri-Weekly Enterprise, published at Noblesville, and carrying the largest amount of classified busiss in that section. The Enterprise covers Hamilton county thoroughly and is the medium to use to get results. Rates, 4c per word; 6 insertions for the price of 5. Nothing taken under 10c. Address. The Enterprise. Noblesville, Ind.

CERTIFICATE OF PARTNERSHIP

ket appeared firm at these advances and will probably go higher short-ly-although many jobbers believe price increases will be gradual, rather than sharp. The advanced quotations are not confined to the local markets, but higher prices are prevailing throughout the country owing to the short erop. It will be June before new stock is matured.

The receipts of asparagus were liberal, but prices were firm at the closing rates of the previous day. The market was active and up. The average quality of the receipts was high and the ruling figures were from 8 cents to 15 cents per pound.

Celery was slightly firmer, fancy and stalks selling at \$5.75 a crate.

Celery was slightly firmer, fancy long stalks selling at \$5.75 a crate. Rhubarb was weak with receipts large and sales slow. Strawberry rhubarb declined to \$2.25 a box for fancy stock.

Citrus fruits were in better demand. The rain seemed to put more spirit in the trading, and though sales were not large there was a

spirit in the trading, and though sales were not large there was a firmer undertone shown. Fancy large sized oranges, grapefruit and fancy packs of lemons sold readily at the old range of prices.

The appla market was inclined to be dull. There was a fair shipping movement, but the local demand was only moderate, with the call for fancy large sizes.

The egg market showed a decline of 2 cents on all grades. Candled selects went to 23 cents, case counts to 19 cents and seconds and pullets stock to 17 and 16 cents, respective-

How the Big Contest Will

(Photo by H. Betzold, Anaheim)

Miss Lillian Yaeger, Santa Ana

Five Judges Will Your Success Rests Decide the Winners With Yourself Alone

The Contest Will Close Sharp at 9 O'clock Saturday Night, March 16th. Final Ballots Will be Counted in the Register Office.

The following are the rules that all candidates must strictly adhere to for the closing of this contest:

These rules are advertised one week ahead in order that all the candidates and their friends may study them. If there is anything that is not plain the candidates and their friends are requested to notify the contest editor at once in order that it may be made clear.

After the ballots are counted Friday morning at 10 o'clock for publication in the evening issue of the Register, the lock on the ballot box will be sealed, and the keys will be turned over to the judges at that time. After counting the ballots on Friday morning and before sealing the box the judges will thoroughly examine the same to see that no ballots remain in it and the sealing will be personally conducted by the chosen judges. The box will not be opened again until the final count. This assures every candidate in the race that the vote she polls after 10 a. m. Friday morning will be polled with absolute secrecy to herself.

Any subscriptions that candidates may have to turn into the contest department after Friday morning at 10 o'clock must be put in a sealed envolepe accompanied by the correct amount of cash money, money order, currency or certified check, CHECKS NOT CERTIFIED WILL NOT BE ACCEPT-ED. These envelopes must be received by mail or handed into the contest department unopened before 9 o'clock Saturday night, March the 16th, which will be the closing date and hour of the contest. The contestants must poll all the ballots they may have, but under no consideration will any subscriptions be received after 9 p. m. Saturday, March the 16th.

As soon as all the ballots have been made out for the amount of subscriptions contained in the sealed envelopes the judges will then commence the final count to decide the winner.

One of the judges will call the amount of each ballot, two of the judges will verify the amount he has called, and the other two judges will tally. The ballots will then be recounted on the adding machine, and before any decision is made all three tally scores will have to be identically the same.

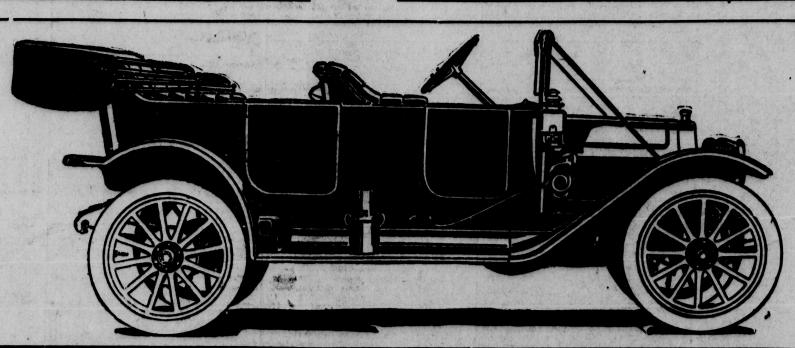

The judges who will decide the winners of the E-M-F Touring car, the Dining Room Set, the Diamond Ring, the White Sewing Machine, two Scholarsips at the Orange County Business College, and the three Scholarships at the Orange County Conservatory of Music, have been carefully selected and a glance at the following names, we are sure, will meet the approval of all:

MR. FRANK EY	
H. T. RUTHERFORD Fa	rmers and Merchants Bank
C. S. CROOKSHANK	
W. B. WILLIAMS	
JUDGE Z. B. WEST	Superior Judge

The counting of the ballots will be a public affair and every one is invited from far and near to attend the final count. It will be a sight worth seeing and we promise you more excitement on Saturday night, March the 16th, than has ever been witnessed in Santa Ana before, municipal and county elections

Roll of Honor

	Votes
Miss Lillian Yaeger, Santa Ana	453,775
Mrs. N. E. Todd, Santa Ana	453,250,

Miss Itasca Craig, Westminster	126,675
Miss Helen Davis, Garden Grove	110,960

Make Sure That You Get Your Share of these Big Ballots Before the Last Big Vote Offer Ends.

If you are one of these candidates whose name appears on this page you are in the running good and strong.

If you have not as many votes as the leader that is all the more reason why you should proceed to get busy in the final rush.

Get busy—the race will be as close as the stem of the leaf is to the bark of a tree.

And lay a great deal of stress on that word "busy." It will be the means of your taking in the slack at the finish.

By coveting the "slack" at the finish is meant, that you will gather in the loose votes of those who have promised you their support provided you look like a winner towards

Whether you are at the bottom of the list or at the top, you'll have to keep gathering in the votes. A vote overlooked by you will be taken in by your competitor.

Be careful that you do not overlook a single new one, two and five year subscription to the Daily Register.

If you are satisfied with what votes you already have, all well and good, but satisfaction at this stage of the contest will bring destruction to your campaign on March 16th. There are others who will use every effort to beat you before the close of the contest and you will have to keep pace with them to stand an equal chance.

If you are behind the leader in this good-natured tugof-war, you have ample time to make a showing, and a winning showing at that.

Don't get a mistaken idea of the progress and integrity of those at the top of the list. It doesn't necessarily follow that because they have cast a whole lot more votes than you have that you won't catch up before the eleventh hour.

Without detracing at all from the splendid work of the leaders, we can say that there is a limit to everything, and that they have possibly reached their limit. We can't speak for what they'll do, or what any candidate will do. Its just as likely as not that the winner of the contest on Saturday night, March 16th, is at the bottom of the list

There are just 7 working days left and everything depends on the progress you make in these seven days.

This Schedule	Now in	Effect and	Closes	Next	Saturday
	Marc	h 9th, at 8	p. m.		

	March 9th, at 8 p. m.					
			ce by	Price by Mail	Votes New	Votes Old
